

HEATING PRODUCTS [Heater Demister]

EWEB 6301 - Top Plenum

DESCRIPTION:

The top plenum box is mounted on the dashboard of the coach, in such a manner that its 3 top outlets face the windscreen and the bottom 3 outlets the operator. The outlets are individually adjustable to lower or lift the beam of airflow through a specific outlet. This allows the unit to demist the windscreen when required, while at the same time providing heat to the cabin. The outlets are spaced evenly over the length of the unit, allowing the unit to spread the airflow more evenly

FEATURES:

- 6 x Adjustable Air vents

OUTLINE DIMENSIONS (in millimetres):

SPECIFICATION SHEET:
